Welcome   Booz | Allen | Hamilton

Eogogics, wireless industry's most experienced training team, has been at the forefront of the global network roll-out for nearly two decades. Now, partnering with Booz Allen Hamilton's Learning and Development, we're pleased to offer a series of courses that have been custom developed to the requirements of BAH's Wireless Systems Engineer Training Program. Available on demand and at up to 33% discount, most courses are conveniently taught right on the BAH campus or on the worldwide web. For more on these courses, check out **www.gogics.com/clients/bahwireless**

The Courses

- RF Systems: Principles, Design & Deployment (with Telecom Overview)
- EoIP Part 1: IPv4, IPv6 & Mobile IP
- EoIP Part 2: Multimedia Applications, Architectures & Future Directions
- RF Safety: Protecting Yourself from RF Radiation
- 3G and Beyond: Advanced Wireless Technologies
- Traffic Analysis & Bandwidth Simulation
- Microwave & Fixed LOS Link Design Workshop

The Instructors

You will be taught by instructors who are among the most dynamic and experienced to be found anywhere. They rank in the top tier of their field of expertise and teach with clarity and passion. Check out the instructor bios and course outlines at: **www.gogics.com/clients/bahwireless**

In addition to our special wireless curriculum for BAH, we offer nearly 300 courses covering soft skills, management and leadership, technical and project management, IT, systems and software engineering, security and public safety, and of course telecommunications. All courses can be customized to your team's needs and taught onsite at your offices. Ask us for the special 10% discount available only to BAH teams. Visit www.gogics.com/clients/bahoffer or contact us for details.
